

3RD
VIRTUAL TAEKWONDO
INTERNATIONAL CHAMPIONSHIPS
and PARA

FEBRUARY 27TH + 28TH

Dear Coaches and Athletes,

We welcome you to participate at the 3rd Virtual Taekwondo International Championship 2020. Be there and let's revolutionize the Virtual Taekwondo in the field of sparring, and participate from your very own home, TKD school or studio against athletes from around the world.

In a year when there will not likely be any in person competitions, take this opportunity to continue your competitive spirit as you show your sparring techniques on camera to become the 3rd Virtual Taekwondo International Champion or the 2nd Virtual Taekwondo International PARA Champion.

Sincerely,

Daniel Manz (CEO of Virtual Taekwondo)

RULES:

The starting and ending point of the target-sparring should be clearly visible.

Only techniques used in sparring will be permitted. No open hand techniques.

The judges will review each submitted video and the competitors technical skills in a live video broadcast on YouTube on February 27th / 28th, 2021 and personally evaluate each competitor.

You can follow the event live on that day.

JUDGES MARKS:

Two scores per judge will be awarded.

The 1 score includes the following criteria:

Pre movements, drop off the technique, covering during the kick

The 2 score includes the following criteria:

Variety of techniques, speed and strength, precision, rotated techniques

The lowest score from score 1 and score 2 will be deleted.

All other scores are summed up to determine the total score.

If there is a tie for places 1-3, the video will be checked again and new decided.

Explanation of relevant terms:

PRE-MOVMENTS: Disclosing the following technique too early. The movement of the foot is specifically observed here.

DROP OFF THE TECHNIQUE: Return of the athlete to his starting fighting stance after performing the attack or technique.

COVER DURING THE KICK: Use of suitable block techniques not only before or after but especially during the execution of the techniques.

VARIETY OF TECHNIQUES: Use and sensible combinations of various techniques.

SPEED AND STRENGTH: The explosiveness, speed and strength of the technique used throughout the execution, from start of movement till hitting the target.

PRECISION: Precision of the techniques during execution and when hitting the target (dispersion or exact hitting the target area at the optimal height).

ROTATED TECHNIQUES: Sensible and strategic use of turning techniques (corresponding to higher scores in competitions).

Deductions: (deductions from the total score):

When any part of the participant's body is outside the video frame -2 points

Not wearing a tobok -2 points
